

M9 RAFT

TACTICAL CRAFT

P/N Z80235

SHADOW OPERATIONS

Many NATO forces use this Zodiac Milpro M9 Raft as a rapidly inflated boat for reconnaissance or a tender to large craft for landing parties.

The raised bow of the M9 is designed to take the weather at sea.

It is also able to provide protection from breakers when embarking from the beach and is particularly useful when rocky or shallow conditions apply.

CAPACITY

. maximum number of persons :	4	4
. maximum payload :	400 kg	880 lb

DIMENSIONS

. overall length :	2,74 m	9'
. inside length :	2,01 m	6' 7"
. overall width :	1,48 m	4' 10"
. inside width :	0,70 m	2' 4"
. weight empty :	20 kg	43 lb
. buoyancy tube diameter :	38 cm	15"
. folded dimensions :	0,89 x 0,46 m ² 35" x 18"	

FABRIC

. main buoyancy tube :	military grey, 1100 dtx, polyester, CSM / neoprene
. bottom :	black, 1100 dtx, polyester, CSM / neoprene

ENGINE POWER (OPTIONAL)

. shaft length :	Short	15"
. maximum power :	4 hp	3 kW
. speed approx.		4 kt

SAFETY / INFLATION

. airtight compartments on main tube :	2
. assembly time :	7 minutes

VALVES

. inflation valves on main buoyancy tube : 2

REINFORCEMENTS

. peripheral rubbing strake, flat profile, black : 1

TOWING AND LIFTING

. bow large towing D rings, reinforced : 2

HANDLING

. exterior lifeline : 2

. bow carrying handle and mooring D ring : 1

OPTIONAL EQUIPMENT

. inflatable beam thwart

. transom removable
