

MILPRO AIR SEAT

ACCELERATION AND IMPACT REDUCTION

Customizable and adaptable, the Milpro AIR jockey seat has been developed by Zodiac Milpro to meet perfectly the high requirement of military and professional users.

Its design provides the capacity to stay at sea during long range operations and to preserve the crew from fatigue and injuries.

The special structure of this seat makes it efficient in all sea conditions and adaptable on every boat.

Fully customizable, the Milpro AIR jockey seat integrates a storage locker and a large choice of options as foot rest, deck track quick release, seat handle, and moreover ...

Also available fitted with an additional jump seat, the Milpro AIR DUO jockey seat allows to carry an extra passenger on a removable independent suspension system.
